EXPERIENCE

Internship   Aug 2023 - Nov 2023
WebPro Technologies Pvt Ltd   *Ayodhya, Uttar Pradesh*

- Developed dynamic and responsive web applications using HTML5, CSS3, JavaScript, and Bootstrap.
- Implemented backend functionality using PHP and MySQL database.

PROJECTS

Blogging App   [Project Link]

Built a MERN stack Blogging App with Tailwind CSS. Features user authentication, responsive UI, and interactive components

- Implemented user authentication using JWT token and bcrypt for secure login.
- Blogs have timestamps indicating when they were created.
- Includes login/signup functionality for users.
- Allows users to manage their profiles.
- Designed with a user-friendly UI using Tailwind CSS and Material UI.

Weather App   [Project Link]

Developed a Weather App using HTML5, CSS3, and JavaScript, utilizing APIs to fetch current weather information for any location and display details such as temperature, wind speed, etc.

Todo List App   [Project Link]

Developed a Todo List App using HTML, CSS, and JavaScript. Implemented local storage for data persistence and designed a responsive, user-friendly UI.

EXTRA-CURRICULAR ACTIVITIES

- Chess, Movies, Badminton

LEADERSHIP

- Led the development of a Food Waste Management System Website project in college, coordinating with my team of developers and designers. The website aimed to reduce food waste by connecting surplus food from restaurants and events with local charities and community organizations.
